Karen Nantz, Eastern Illinois University (USA)

The mission of the Journal of Information Technology Education is to:

- improve IT education around the world by publishing high quality articles on best practices and other topics of use in improving IT education,
- expose the reader to a variety of epistemologies and types of articles, including primary, action, and secondary research,
- provide those who submit manuscripts for publication with useful, timely feedback by making the review process constructive,
- be for the reader the most authoritative journal on IT education, and
- acknowledge and embrace the diversity of teaching and learning models in use around the world
