The goal of the **academically peer refereed** Journal of Information Technology Education (JITE) is to improve IT Education around the world. JITE is indexed in InSPEC & Cabell's Directory of Publishing Opportunities in Educational Curriculum and Methods. All papers have been subjected to a blind review by three or more reviewers. Accepted articles are available free of charge on the web site <http://jite.org>.

The mission of the Journal of Information Technology Education is to:

improve IT education around the world by publishing high quality articles on best practices and other topics of use in improving IT education,

expose the reader to a variety of epistemologies and types of articles, including primary, action, and secondary research,

provide those who submit manuscripts for publication with useful, timely feedback by making the review process constructive,

be for the reader the most authoritative journal on IT education, and

acknowledge and embrace the diversity of teaching and learning models in use around the world.
